

You Can't Predict A Fire, But You Can Prepare for It

Cool Life® has been formulated as a specialized fire retardant coating, outperforming traditional house paint by effectively slowing the spread of flames and reducing smoke. Its advanced formula gives you extra time when it matters most.

Cool Life® is designed to:

- ✔ **Reduce flame spread**
- ✔ **Minimize smoke development**
- ✔ **Prevent structural damage**

Cool Life® is formulated as a flame retardant and smoke suppressant. Under extreme heat, it breaks down into water and alumina, helping reduce smoke and the spread of flames.

- 1 PRE INSPECTION + CONSULTATION**
Experts will provide a thorough an in-home inspection.
- 2 TRENCHING**
To block ground moisture, 4-6 inch trenches are dug around the home.
- 3 HYDROBLASTING**
